

HVAC SOLUTIONS

ROTH

Roth Bros. HVAC Division focuses on Design/Build mechanical work for commercial, retail, office, automotive, and industrial marketplaces throughout the United States.

Quality, efficiency, and reliability are engineered into each HVAC installation. From small to large, simple to complex, Roth Bros. specializes in planning, designing, and installing systems for specific needs. Whether the need is new construction, renovation, specialty applications or fabrication, look to Roth Bros. consistent high standard of excellence.

GENERAL MOTORS *Lordstown, Ohio*

Roth Bros. well-equipped and organized crews often work around-the-clock to complete renovations without interrupting production schedules. Roth has logged 1,000,000 + Safe Work Hours in industrial environments.

BRENTWOOD ORIGINALS *Youngstown, Ohio*

In this application, Roth Bros. provided solutions to unique product handling and ventilation concerns. The project was designed by Roth engineers; fabricated and installed by skilled journeymen.

MAHONING COUNTY CRIMINAL JUSTICE CENTER *Youngstown, Ohio*

Roth Bros. excels in meeting the design challenges of large, elaborate installations. Complex mechanical systems, including hot and chilled water with heat recovery wheels, were installed in this 7-story, high profile containment facility where indoor air quality and smoke control systems are a major concern.

Air Handling System

ALLEN BRADLEY CORPORATE FACILITY AND RESEARCH LABORATORIES

Mayfield Heights, Ohio

Customers depend on Roth Bros. to complete complex installations on schedule. Utilizing low temperature VAV terminals, a custom-built air handling system was installed at this facility. This provided the owner with a state-of-the-art system in a five month, fast-track, completion schedule.

GREAT LAKES MALL

Mentor, Ohio

Roth Bros. HVAC Division specializes in mall, food court, and smoke exhaust systems. The ability to combine with Roth Bros. Roofing and Energy Management Divisions provides a single-source solution for customers requiring major renovations or additions.

J.C. PENNEY

Peabody, Massachusetts

Roth Bros. is known nationwide for its ability to accomplish multi-task installations based on customer specifications. Major renovations of HVAC, plumbing, and sprinkler systems were performed on a Design/ Build basis at numerous locations. Roth's retail customers demand a high quality system installed in phases while the store remains open.

HEARTH & HOME

Rockville, Maryland

This application shows the versatility of Roth Bros.' engineers and craftsmen. A curved copper clad hood with a length of 30 feet and a width of 10 feet, weighing approximately 7,000 lbs., was designed, fabricated and installed using no hanging supports or cables. Just another basic idea brought to reality by Roth Bros., Inc.

NORTHSIDE HOSPITAL • *Youngstown, Ohio*

ROTH BROS., INC. SOLUTIONS
Youngstown, Ohio

Roth Bros. is synonymous with quality, design-driven HVAC systems. Roth is a multi-divisional company specializing in HVAC Construction and Retrofit, Energy Management Systems, National HVAC Service, Roofing, and Performance Contracting. Recognized nationwide as a leader in the industry, Roth Bros. is well known for its experience and proven performance.

Backed by a strong corporate commitment, creative engineers, and dedicated employees, Roth Bros. HVAC Division excels in converting initial concepts into complete installations.
